

Curriculum Vitae

1. Family name: Nikitina

First name: Natalia

Present position

Associate professor,

Department of Chemical Metrology

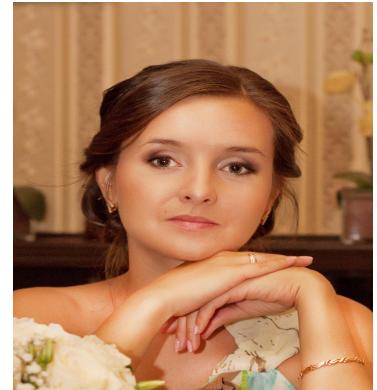

V.N. Karazin Kharkov National University

address

Svoboda sq., 4, Kharkiv 61022, Ukraine

tel.: +380577075248

e-mail: nikitina@karazin.ua

2. Personal data

Date and place of birth: May 07, 1980; Rybinsk, Yaroslavl region, Russia

Residence: Kharkov, Ukraine.

Marital status: married, one child

3. Education

1997- 2002 – V.N. Karazin Kharkiv National University, student, specialization at the Department of Chemical Metrology. Main subjects studied: analytical chemistry, organic chemistry, inorganic chemistry, physical and colloid chemistry, parameters of equilibrium, multicomponent analysis.

2002-2005 – V.N. Karazin Kharkiv National University, Ph. D. student, Department of Chemical Metrology.

4. Qualification

2002 – Master of chemistry at the V.N. Karazin Kharkiv National University, advisor – Ph. D. Elena. A. Reshetnyak Ph. D. thesis: “*The evaluation of metrological characteristics of test-determinations on the basis of reagent indicator paper*”

2006 – Ph. D. in analytical chemistry at the V.N. Karazin Kharkiv National University, advisor – Ph. D. Elena. A. Reshetnyak Ph. D. thesis: “*Test-methods of chemical analysis with visual indication: metrological assurance, new test-systems*”.

5. Employment

2006- 2010 **Senior Lecturer, Researcher** at the Department of Chemical Metrology

2010- till now **Associate professor**, Department of Chemical Metrology
V.N. Karazin Kharkiv National University

6. Subjects read at the V.N. Karazin Kharkiv National University

Analytical chemistry

Ecological analytical chemistry

Ionic equilibrium in organized solutions

Medical chemistry (in English)

7. Research interests

test-analysis: creation of new test-systems for environmental contaminations control; estimation of metrological performance of test-methods techniques with visual indication (detection and determination limits, selectivity, errors of determination); colour scales.

equilibria investigation: complex formation, complex stability, composition of

complex in homo and heterogeneous medium; protolytic equilibria in heterogeneous and self-organized medium.

8. Used methods of experimental work

Electrochemistry, spectrophotometry, titrimetry.

9. Bachelor and master thesis advisement

More than 20.

11. Awards and Scholarships

- Scholarship named N. Beketov to young scientists from Kharkiv Regional public administration, 2007.
- Research grant from Fund of fundamental, applied and searching research works of V.N. Karazin Kharkiv National University, Supervisor of the project: "Instrumentalization of quantitative determinations in test analysis and thin layer chromatography and chromaticity of multitests" (2007).

12. Participation in research works supported by Ministry of Sciences and Education of Ukraine

- Control of chemical equilibria in heterogeneous and microheterogeneous media promising for test and hybrid methods of analysis (No. 0103U004212) (2003-2005).
- Control of processes at the interface and optimizations of experimental conditions in hybrid methods of analysis (No. 0106U003109) (2006-2008).
- Chemometrics grounds of structure-retention-property relationships (No. 0107U000659) (2009);
- Nanostructured silica and organosilica materials for chromatography and test analysis (No. 0109U001310) (2010).

13. Most important publications

Book

1. Yu.V. Kholin, N.A. Nikitina, A.V. Panteleimonov, E.A. Reshetnyak, A.A. Bugaevskii, L.P. Loginova, Metrological characteristics of detection procedure with binary response. – Kharkov: Timchenko, 2008. 128 p.
